For Immediate Release

**NEED HIGH SPEED DELIVERS HIGH SPEED INTERNET TO FOOTHILLS PARK
AND RECREATION DISTRICT**

- Leading Front Range Internet Service Provider Ensures Fast Connectivity -

Denver, Colorado – Need High Speed, Inc. a leading provider of high speed Internet services to the Front Range today announced that it is serving as the Internet service provider for Foothills Park and Recreation District. Need High Speed delivers high speed Internet services providing point of purchase connectivity for remote sites.

Need High Speed provides the transport services for the member information, frequent visitor data and point-of-sale transaction processing equipment located at two outdoor swimming pools and a golf course under the management of Foothills Park and Recreation District. Need High Speed also provides high speed Internet access for the District's 100 users, soon to be 150, with the opening of two new buildings later this year.

The selection of Need High Speed supports Foothills Park and Recreation District's goal for becoming the provider of exceptional quality park and recreation services, facilities and programs to the Foothills community. Need High Speed is helping the organization realize its vision of technology advances aimed at customer convenience, communication, increased efficiency, and improved information management.

NHS Delivers High Speed Internet to Foothills Park and Recreation Dist – Page 2

“We needed a high speed and responsive partner to support our poolside and golf transactions as well as deliver Internet services, according to Yannick LeRolland, IT Supervisor for Foothills Park and Recreation District. “Need High Speed met the challenge of delivering high speed connectivity to our numerous facilities.”

“Foothills Park and Recreation District is our favorite type of customer – one with a communications challenge,” states Trevor Banister president and CEO of Need High Speed. “Need High Speed specializes in employing the optimum technology for the applications we encounter.”

About Foothills Park and Recreation District

Foothills Park and Recreation District, founded in 1959, generally serves Hampden south to C470, and Sheridan west to the hogback. The District currently operates Lilley Gulch Recreation Center, The Peak Community and Wellness Center, five swimming pools, Clement Skate Park, two golf courses, four regional parks and 41 neighborhood/community parks. The passage of a 22 million-dollar bond issue in November of 2000, will enable the District to add several needed facilities. These include: a large recreation center that will offer two full size gymnasiums, a large indoor pool, leisure pool, a warm therapy pool, climbing wall, and designated space for both youth and teens; renovations to Lilley Gulch Recreation Center; new trails and trail connections; and new park development.

About Need High Speed

Need High Speed, Inc. (NHS) is a Colorado company headquartered in Lakewood, CO. NHS is dedicated to providing high speed communications services and solutions to the Front Range area by the best means possible. Recognizing that DSL and cable modems were unavailable in many areas and that T1 service was expensive, NHS has built a wireless network extending from Southern Fort Collins to Castle Rock to deliver badly needed Internet services.
